## THE OPENING CEREMONY

■ The Opening Ceremony of Maintenance and Cleanroom Exhibitions was realized on 16th April 2015 at 11.00 hrs. at the Conference Hall in the fairground with participations and opening address of Mr.Prof.Dr.Bariş OZERDEM, The President of ASHRAE Turkish Chapter and Mr. Ahmet Lutfi AKAR, The President of Turkish Red Crescent.

## PICTURES FROM THE EXHIBITION

The extensive product range exhibited by the exhibitors of Maintenance Istanbul Exhibition including; measurement and test equipment, condition monitoring systems, lubricant and lubrication systems, rollers, industrial chemicals, heavy maintenance products and systems, process maintenance and software, transformers and automation and more have been followed by the visitors of the Exhibition. All of these products and services were very important for the industrial facilities to avoid nonproduction.

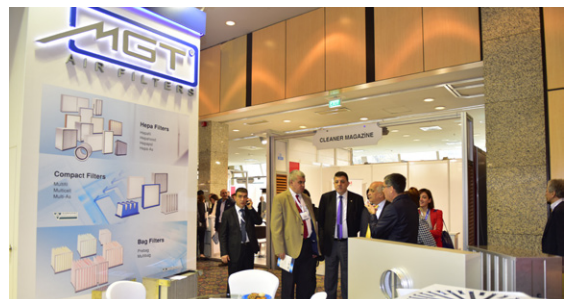

## PICTURES FROM THE EXHIBITION

International and National based leading trademarks of Cleanroom Industry came together in Cleanroom Istanbul 2015 Exhibition and they all welcomed the cleanroom professionals who came from all around Turkey and some neighbouring countries of Eastern Mediterranean and the Middle East. High-technology products were presented at the very well-designed booths of the exhibitors.

## ACCOMPANYING EVENTS

Aside from the extensive product range exhibited by the exhibitors, Maintenance and Cleanroom Exhibitions 2015 also offered an interesting and rich accompanying programme to the trade visitors. A lot of accompanying events were realized in the conference halls of the Exhibitions in the fields of design, engineering, international standards and application.

## EXHIBITOR'S REMARKS FOR MAINTENANCE AND CLEANROOM EXHIBITIONS

### **AES / Ogün Altıntaş**

We are very well known successful solution partner in the concerned sectors. But we also aim to find new markets to enlarge our costumer portfolio. That's why we are here in Maintenance Istanbul Exhibition as an exhibitor. I can say that this exhibition supplied us a good platform for our target.

### **Atson – Akşin Attaroğlu**

Cleanroom Istanbul Exhibition has become the exact fair for our sector. We do not evaluate this event as a competition because we have been doing business with all of other exhibitors as well. For now, I can say that we have got satisfied number of visitors at our booth.

### **Aveskon – Önder Demircan**

Maintenance Istanbul Exhibition is the target fair for our business field. We participated the show to stand in the forefront in the field of tank maintenance.

### **Bıçakçılar – Özenç Efe Öztürk**

We have been participating the exhibitions in different sectors for years. This is a very new exhibition. There have been cleanroom manufacturers and contractors. There are also very successful accompanying events during the exhibition. We wanted to be a part of this new event.

### **Dorutek / Murat Samyeli**

At the beginning we hesitated to participate Cleanroom Exhibition since the exhibition would be the first organisation in Turkey. But now, everything goes very well. I am sure that the exhibition will enlarge every year.

### **Eutek / Serdar İnan**

Maintenance Istanbul Exhibition covers the niche area that we have been doing business. That's why we participated the show. We believed that we could also support this important sectoral event with our know-how, so we organised a seminar in our business field. We observe that exact target professional visitors have been visiting the exhibition.

### **Belén Sampedro, Fisair**

I'd share with you the interesting experience to be present at the exhibition. I had the great opportunity to make a presentation at one of the conferences and I must admit that I was pleasantly surprised by the large attendance and professionalism.

### **Grutzner GmbH– Erkan Ünlü**

We have been participating maintenance exhibitions in Germany and Russia for years, since this business field is our profession. For that reason we are here in Maintenance Istanbul Show. This exhibition gave us a very big advantage for the concerned market in Turkey. We met very important maintenance engineers from different sectors. We believe that after the exhibition we will have good commercial results as well.

### **Havak-General Filter Havak / Senem Güler**

Cleanroom Istanbul Exhibition is a very important trade platform for us and we very well prepared for the show. All of the specialist designers, manufacturers and professionals of cleanroom sector have come together at the exhibition. The venue of the exhibition is at the city center and related visitors can easily come to the fairground, this is a very big advantage. The professional business atmosphere of the exhibition is a very good platform to meet the target visitors.

### **Henkel / Tolga Çalışan – Zeynep Eksioğlu**

Maintenance Istanbul Exhibition was very successful for us. We had a satisfied number of visitors and our seminar was very successful as well. We are very glad about the organisation. We can say that this exhibition is a boutique one and all of the visitors deliberately come to the booth. Certainly there are some points to be developed in the future, but generally we are happy to be here in Maintenance Istanbul.

### **HPAS Western Zone- Mohamed Al Gahtani**

I begin by praising the marvelous clean room exhibition that you hosted in Istanbul. Your abilities as being exceptional hosts truly left an impact on our sponsored customers as well as us. It has expanded our awareness and improved our knowledge which will further aid us in the Saudi market. The training was comprehensive and well-structured and it was beyond our expectations. Furthermore we would like to inform you that our clients whom visited the exhibition were impressed with the Turkish manufacturing capabilities and quality.

### **HTL- Naci Sivri**

We generally did not participate that kind of organisations before because we have got a special costumer portfolio. But we believe that we should change our behavior on this issue. Cleanroom Exhibition is the first organisation in this sector in Turkey and it's really very important. In accordance with the developments in the sector, the exhibition will develop as well.

### **ICCCS / Koos Agricola**

I really liked the atmosphere of Cleanroom Exhibition in Istanbul. I can compare this exhibition with Cleanzone in Germany. Morning hours were quite silence but later on it became much more crowded. I also observed the accompanying events of the exhibition. I can say that the attendees of the seminars and panels were really quite interested in the presentations. But internationality is very important for that kind of events, so the organisers should develop the internationality of the exhibition. Generally it's possible to find cleanroom technology, equipment and all related materials in Cleanroom Istanbul Exhibition. I think the cleanroom professionals were satisfied with the wide range of the exhibited products.

### **İNŞEL – Metin Kenter**

I really care about Cleanroom Istanbul Exhibition since it's the first organisation in the related sector in Turkey. Because there have been a real cleanroom sector in the country. People should personally see the technology and equipment in the exhibition instead of having false and insufficient information on the internet. For that reason this exhibition is very very important for all of us who have been active in cleanroom industry.

### **LIGHTHOUSE – Haşim Solmaz**

Cleanroom Istanbul Exhibition will be a very fruitful event for our sector as a specialist fair. Feedbacks from the market support this situation. This is a real sectoral meeting where the professionals, technology suppliers and authorities come together.

### **Metis – Serdar Tuncer – Hüseyin Ayar**

This exhibition is very important for our sector. We participated and prepared the exhibition very excitedly. It seems that all concerned professionals were very well informed of the exhibition since all of them are here in the fairground. I believe that this exhibition will accelerate the market conditions and create an awareness in the sector.

### **Mikropor – Tunga Eltetik**

We haven't been to that kind of fair organisations in Turkey but we participated Cleanroom Istanbul Exhibition to meet the professional visitors and present our high technology to the concerned people in the sector.

### **RİVOSEM – Ahmet Gökhan Özgür**

We only have been serving in the medical sector for years, but now we are trying to change this situation. We participated this exhibition since it gives us an opportunity to find international relations.

### **SKF – İbrahim Us**

I really care about Maintenance Istanbul Fair because I have been lacking an exhibition platform in the field of maintenance for many years. Because maintenance is

very important for industrial facilities, people changed their minds and there have been a serious demand in this sector all around Turkey's industrial areas. I believe that this exhibition will be much more developing in the following years.

### **TAR Alliance -AS Bauer / Kazım Sari**

We are very pleased to be here in Istanbul in Maintenance Exhibition which is the first organisation in the related sector in Turkey. Honestly I should state that I did not expect that kind of interest. We are really satisfied by the number and the qualification of the visitors. They were our target visitors who have been very good at their business and professions. The exhibition is very successful for the first organisation. The venue, the concept of the fair, visitors and the atmosphere in the exhibition are all really very good. It's clear that if you are very well organised, it's possible to have fruitful results.

### **TERMOTES- Tolga Keskin**

This exhibition is very important for the cleanroom sector in Turkey. If we find the opportunity to see the distinguished leading companies of the sector all together here in the exhibition we can say that people realized the importance of the subject. The fairground is at the city center, this is very important factor for our decision to participate. I also believe the future of the exhibition very much.

### **Tetisan-Ulpatek / Tamer Özkaynak**

We are the first manufacturer in Turkey who succeeded to produce hygienic air-conditioner. For that reason we thought that we should be here in this exhibition. We expect new customers from the visitors of the exhibition. It's quite early to make an evaluation, we will see what will happen.

### **TOPAZ / Kubilay Köse**

I have been imagining the maintenance fair for 28 years so Maintenance Istanbul Exhibition realized my demand. We have been participating some other exhibitions in other related sectors but maintenance sector always stayed at one step back. This exhibition is very important for creating a sectoral meeting platform for the concerned professionals. Moreover there must be some other attractive accompanying events for promoting the fair to the sectoral professionals and the exhibition should meet a larger target groups during the next years.

### **Trox – Seda Aydın**

We are pleased to participate Cleanroom Istanbul Exhibition. Because this exhibition is just our target platform to meet the cleanroom professionals. We manufacture high technological air products for hospitals, hotels, commercial buildings, shopping malls etc. We found a good opportunity to meet representatives of our target markets.

# ***“We respectfully thank our Exhibitors who have been the partners of the first year of Maintenance and Cleanroom Exhibitions”***
